

DISASTER MANAGEMENT SERVICES

Rackspace Hosting Solutions >

From a single 1U server to a full rack to somewhere in between, we can help you build the solutions to best meet the needs of your business and budget.

Managed Hosting

We offer IAAS solutions (Infrastructure as a service) in the form of dedicated floorspace for rack enclosure and conditioned power at competitive rates. Fully managed service 24 x 7 x 365.

*** Lockable 1/4 rack
NOW AVAILABLE**

eGovJa currently offers two Disaster Management Service options, namely,

Server Hosting Facility & Off-Site Data Storage

Each option provides a measure of recoverability as per client requirements.

Off-Site Data Storage >

Need to store your backup media at a secure, environmentally safe off-site location?

We can offer you a dedicated space in a highly secured fireproof vault. The vault is kept under controlled conditions by its own air-conditioning and humidifying units to ensure the safety/reliability of the media stored. The Computer Suite is monitored by closed circuit television (CCTV) on a 24-hour basis.

The services offered is the rental of a designated space of dimensions 18" x 18" x 18" in which to store a locked case which you will provide and accessible only by you under the guidelines provided.
